Which Microphone Was Used for These Recordings?

Because your voice sounds different when you use a headset compared to using the built-in mic it's important to know which mic was used to accurately transcribe your recordings.

Which mic was used when these recordings were made?

102 ☒ Headset for all recordings

103 ☐ Built-in mic for all recordings

104 ☐ Both some were recorded with a headset some with the built in mic

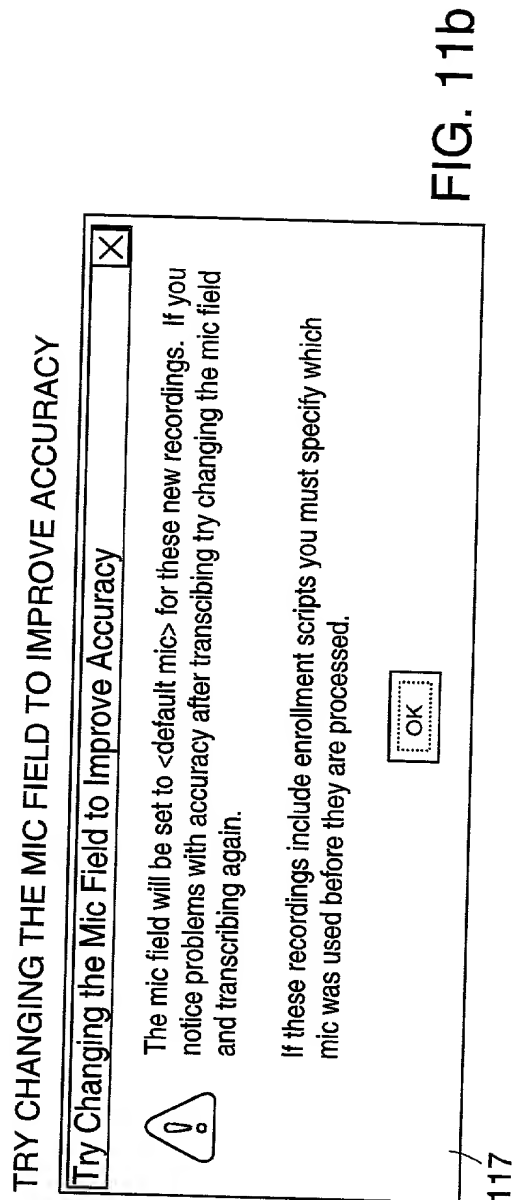

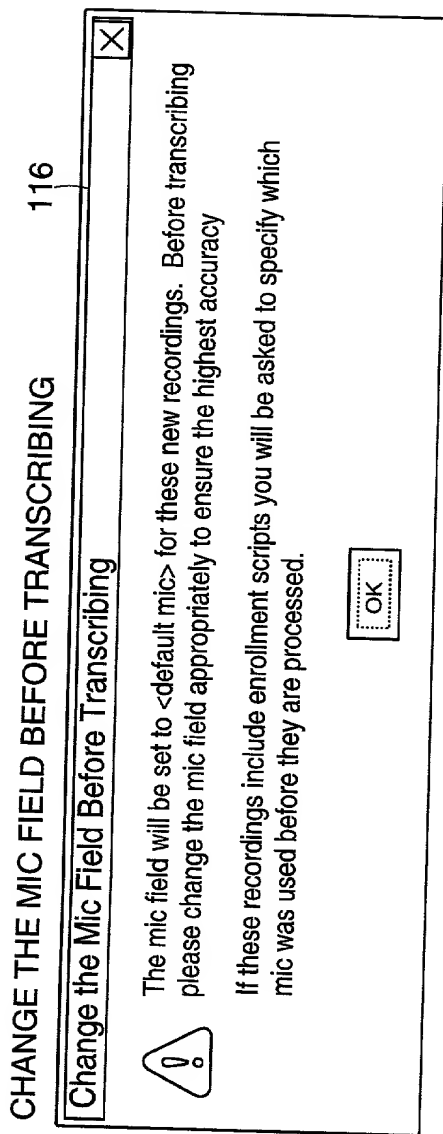

105 ☐ ? Don't know

106 ☐ Don't ask: The same mic is always used for all recordings
